

Special Announcement

March 20, 2012

Eclipse Tools is pleased to announce the addition of Susie (Shearin) Monette, another key member to its organization. Our continued growth has opened up opportunities for an improved outward focus to our customers, always our first priority. Our employees will now be able to spend even more time with customers to continue to provide an even better level of support and customer care experience.

Susie comes to Eclipse with great experience in both the tool and interconnects fields having previously been employed by Greenlee/Paladin Tools and Lumberg Inc.

Please join me in welcoming Susie to the Eclipse Team.

Sincerely,

Roger Scott
President
Eclipse Tools
